

SpeexSubmode

```
graph BT; SpeexSBMode -- submodes --> SpeexSubmode;
```

A diagram illustrating the relationship between two classes. At the bottom is a gray rectangular box labeled "SpeexSBMode". At the top is a white rectangular box labeled "SpeexSubmode". A vertical purple arrow points from the "SpeexSBMode" box up to the "SpeexSubmode" box. To the right of the arrow, the word "submodes" is written in black text.
