Leukoplakia - Mosaic Plots

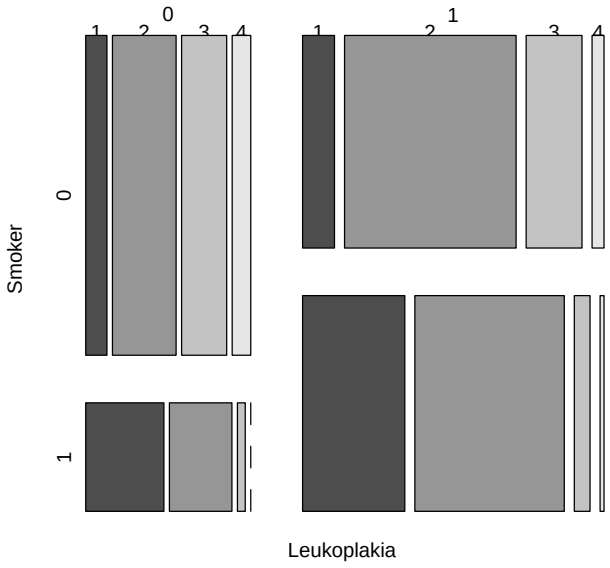
February 5, 2020

The leukoplakia data can be expanded by the command "expand.dft".

```
> library(catdata)
> data(leukoplakia)
> library(vcdExtra)
> leukoplakia<-expand.dft(leukoplakia,freq="Freq")
```

Mosaic plots are created by "mosaicplot".

```
> mosaicplot(~ Leukoplakia+Smoker+Alcohol,main ="", data = leukoplakia,
+            color = TRUE, cex.axis=1.0)
```



```
> mosaicplot(~ Leukoplakia+Smoker,main ="", data = leukoplakia, color = TRUE,
+            cex.axis=1.0)
```
